## A different way to define ourselves as craftsmen.

In these pages you will find lots of useful information to guide you in choosing the cone that best suits your needs. Through the images we have represented our products in a realistic way and we will try to tell you about it our work philosophy.

Ninety years of history testify to a solid tradition. Our attention to incorporating changes, supported the constant attitude to innovation, has allowed us to continue improving ours day after day work, whose main purpose remains to manufacture products of excellence.

Today we have high-tech systems, which guarantee productivity and process reliability, but not they can never replace what we have experienced and learned in all these years. Now, as long ago, we continue to produce our cones, faithful to our ancient recipe, simple and natural. The goodness of a cone is an integral part of the appeal of a magnificent artisan ice cream. We are fully aware of this. We often admire the smug satisfaction of those who enjoy one of our cones. It is an experience that we recommend, because when you have tasted our quality, it will be different than having told it.

## Quality, the most important ingredient.

the choice of the best raw materials, the safety and efficiency of the systems, the care of the packaging and a healthy and stimulating work environment, inspire and nourish the daily search for Quality. We know the importance and value of a waffle, when it is enjoyed together with ice cream and this increases our dedication to be able to always churn out the *absolute goodness*, making the tasting ice cream an experience of gratifying pleasure.

## ... but also your comfort is too.

We dedicate a lot of energy to prepare the Cone you have chosen, packaged with the right attention, that preserve integrity, freshness and fragrance. After passing our quality check, it will be ready to be shipped, with all the guarantees of a fast and reliable delivery. It will come to your ice cream shop, like freshly baked. We like to think we can contribute to your satisfaction. Finally, on the perfect cone, now you can enjoy of your gelato from top to bottom.

# our Cones

## Sugar&Waffle cones

from page 8

Vanillino®, the sugar cones that which stand out for the excellence of quality, an inimitable fragrance, characterized by the typical flavor of the shortbread biscuit. Pleasant on the palate, robust structure for be worked with the spatula absolute safety. All Vanillino cones are made with the same simple and natural recipe, result of our experience and the use of fine quality raw materials, carefully controlled and selected . A wide choice of shapes, available in the version with finished or jagged edge (waffle type). The Vanillino® sugar cones are packed in a special patented R-PET tray, for the best safety of integrity. Most of this items can be supplied with a paper sleeve , with generic draw or customized with customer logo.

## Wafer cones

from page 25

A complete choice of wafer cones to meet any need. We distinguish two important product lines: GustoWafer, cones that belong to the great Italian tradition, for quality and taste. Wide choice of shapes, diameters and heights, all equipped with an inner ring to facilitate the support of the ice cream balls. Favorites by many consumers for the delicious wafer taste, light and fragrant, with a delicate flavored note of vanilla. Dolcecono, is the excellence of quality for a pressed cone. Balancedly sweet, the flagship of our production of pressed wafer cones. Also available already coupled with a paper sleeve also with the customer's logo, packed ready to serve.

## Ricociok

page 22

Ricociok®, the praline cone, covered with cocoa, to taste ice cream like a real and own snack. An alternative for a break fast and energetic. The excellent quality covering, of finest cocoa, it confer a rich and fulfilling taste that it will satisfy the most prone to sin of gluttony. Packaged in a handy food tray, to preserve its integrity and freshness. To prevent the heat can damage them quality, from June to August, the product may not be available.

## Gluten Free

page 20

Glutenfri®, the gluten free cones. Born as a diet product intended for customers with intolerances to gluten, nowadays we all are aware of the nutrition idea and the right to choose what to feed on, considering the alternatives to traditional consuming. Each cone is singly packed in a box dispenser. Also available packed in box for Professional Use. Certified product. Vegan product.

## Decorations

page 118-30-31

Long, short and variegated Cannoli and Millefoglie pastry Fans Wafers with a sublime and intense taste. Available in the exclusive and collectable StripesBox tin. ## FAQ

In the download section of our website [www.coniperfetto.it](http://www.coniperfetto.it) you will find a lot of useful information to learn more about the technical details of the cones, dimensions, packaging. You will also find instructions, special guides, for the best realization of customized products (disks, paper cones with sleeves). If you have other requests, questions or curiosities about our products, you can always contact us on the phone or send an email to [customercare@coniperfetto.it](mailto:customercare@coniperfetto.it)

### How to store ice cream cones after opening the package?

Ice cream cones are highly hygroscopic, therefore they tend to absorb the humidity present in the place where they are stored. After the first use, it is advisable to carefully close the protective polyethylene bag and keep the packaging in a cool and dry place, away from heat sources. Prolonged exposure to air and sudden changes in temperature accentuate hygroscopicity of the cone causing a significant loss of its best qualities.

### Could I have information about your Vegan products?

A wide range of ice cream cones, with requirements for a vegan diet, is available. Specifically marked by the VeganOk brand. For more information contact us please.

### How can I print my logo on a wafer disk?

Really simple! Send us the logo you want to print, in one of the formats suitable for graphic processing (PDF-EPS-BMP-JPG). After a few hours you will receive a draft print and after your approval we will proceed with the order and printing. An exclusive of our prints is that you can get multi-subject prints, up to 5 different logos in sequence in the same box. Scan the QR code to download the guide.

### Can I order cones with already coupled Salvaconos, even personalized ones?

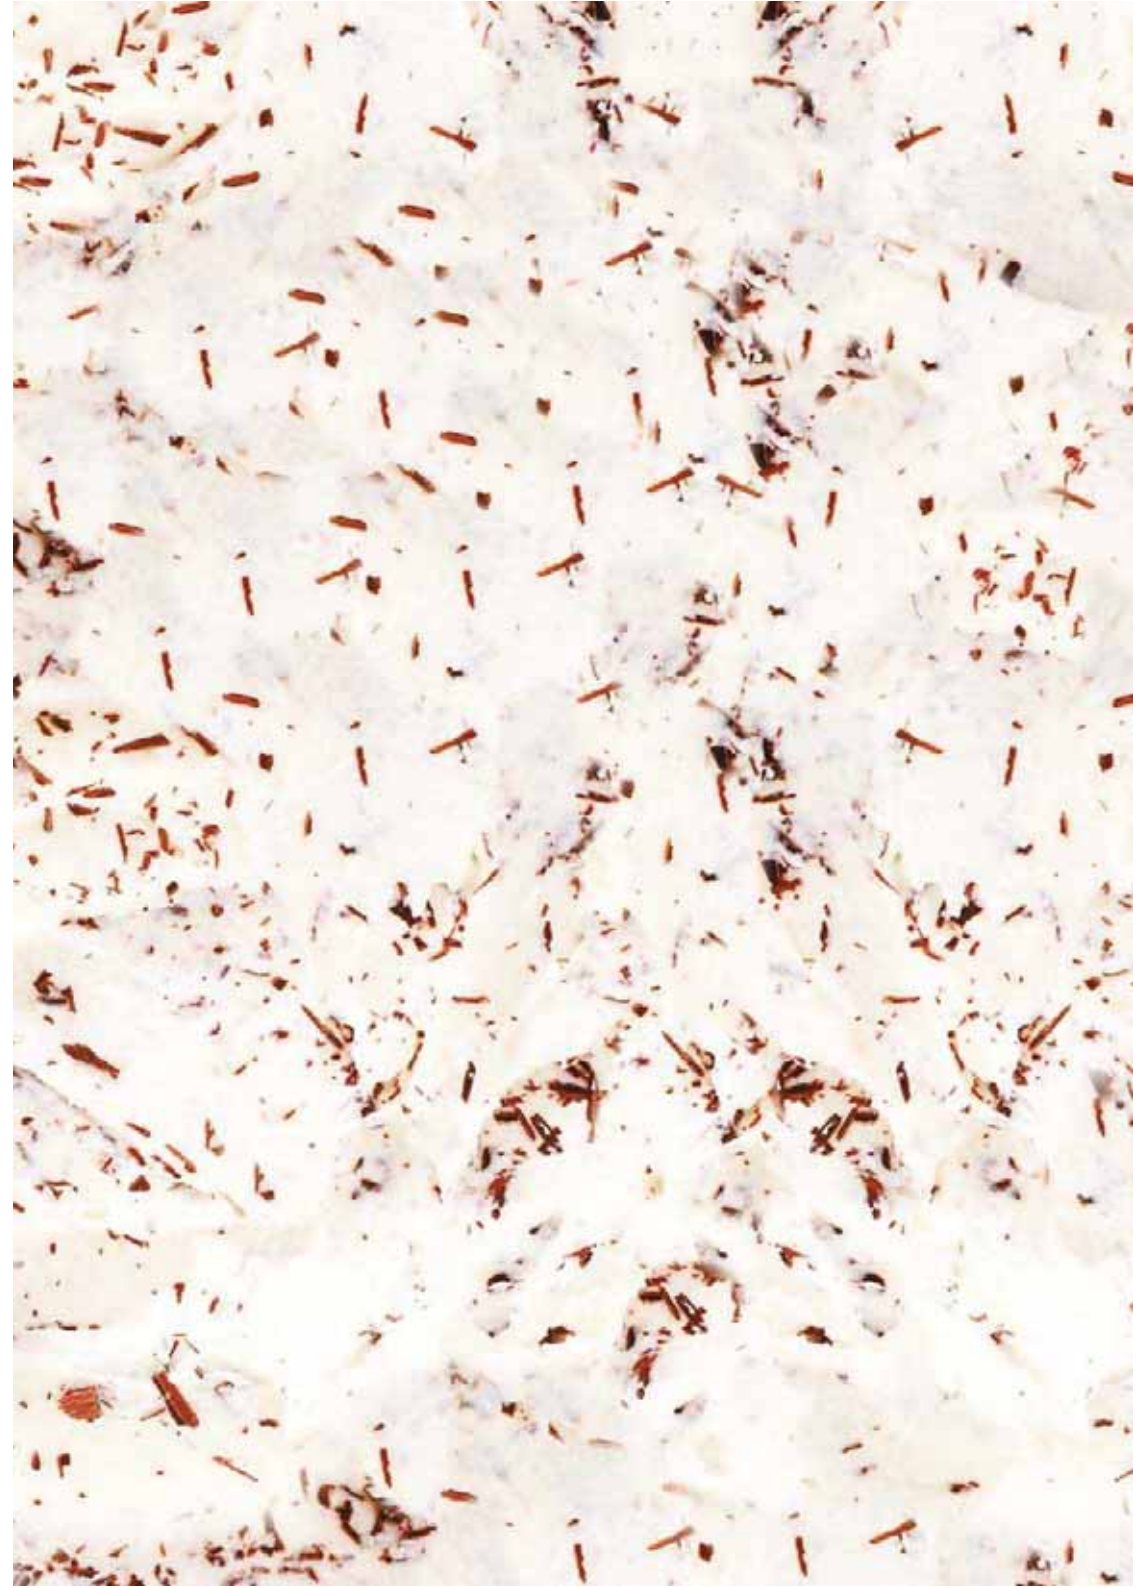

All our Vanyllino rolled sugar cones of the Slim and Regular lines can already be supplied with a wrapped paper cone. Most of these cones are available already pre-paired with a generic Salvacono. However, it is possible to order Salvaconos with personalized graphics, with customer images and logos and subsequently supply them already pre-coupled to the chosen cone, in late deliveries. For the creation of personalized Salvaconos, minimum quantities of printing are required and production times can take up to 2 months. Scan the QR code for download planning program.

### Could I receive a digital copy of your catalog?

Download our catalog by scanning the QR on the side. We remind you that the use of the digital version of our catalog is allowed only for consultation, commercial use and for the dissemination of the company's brand and products.

All trademarks, texts and photos are protected by international copyright. Scan the QR code for download or go to the link [www.coniperfetto.it/dw2/Cat.pdf](http://www.coniperfetto.it/dw2/Cat.pdf)
